IN presenting to our patrons and the general public this edition of the NEW BEDFORD CITY DIRECTORY — No. 23 of the regular series — we would express the hope that it may meet every reasonable expectation. It is scarcely necessary to state that the difficulties and expenses attending the compilation of such a work are very great, and not to be appreciated by any one unfamiliar with the business. The Directory business, like every other, is peculiar to itself.

It will be our constant and earnest endeavor, to give to our patrons, and the general public a book that shall be a credit to us and an indispensable benefit to them. No facility which experience can suggest or money may procure will be spared. We trust and shall expect that the citizens of this beautiful city will give us their most generous support. Let it be remembered that our interests are identical.

Our sincere thanks are extended to all who have aided our canvassers in the collection of information for the present number.

The following synopsis is appended:

STREETS, COURTS, AVENUES, ETC.

The streets of New Bedford, with a very few exceptions, are laid out north and south, and east and west. Those running north and south are numbered, commencing at Union street, and increasing each way, with the even numbers on the east, and the odd numbers on the west side. LOCALITIES OF INTEREST

IN AND ABOUT THE CITY.

ACUSHNET. This is a village usually known as the Head of the River, about three and a-half miles in a northerly direction from the City Hall. The westerly part is in New Bedford, and the easterly part in Acushnet. Pine Grove cemetery is near the village. The post office is in New Bedford.

MOUNT PLEASANT. That portion of our territory known by this name is in the northwest part of the city, commencing at Robeson street. Here are some beautiful private residences, and the view which includes the river, the harbor, the bay, and adjoining shores, villages and islands, is one of the finest in the country.

BELLEVILLE. This name was, many years ago, given to a spot on the bank of the Acushnet river, about one mile south of Acushnet village.

CANNONVILLE. A portion of the westerly part of the city, in the neighborhood of the meeting-house on the Smith's Mills road, is known by this name, thus called in honor of one of our deceased citizens, whose labors in behalf of the people there will long be remembered.

CITY COMMON. This beautiful spot is in the north part of the city, and is bounded by County, Purchase, Pope and Pearl streets. A very handsome monument, erected by the city, at a cost of about \$13,000, as a memorial to the soldiers and sailors who lost their lives during the war of the Rebellion, is located here.

CLARK'S POINT. This point forms the southerly part of the city. It has the waters of the Acushnet river on the east, and of Clark's Cove on the west. Its length is about two miles. At its southern extremity on the river side is a large tract of land belonging to the United States; at the extremity of the point, the government has erected an extensive fortification, to which the light-house has been removed. Around this point, a distant of about four miles, is a road not surpassed by any public drive, in this country. It is called West French avenue, commencing at Cove street (at the Orphans' Home), and follows the shore from thence along the western, southern and eastern boundaries of the point, until it terminates in the street where it has its beginning. It is eighty feet wide, smooth and level, and in its course commands a series of views of surpassing loveliness and beauty. The cove, the bay, the river, the shores, the islands and ledges, the lighthouses, steamers and sailing craft of every description, the city on the one side, its sister town of Fairhaven on the other, and the noble bridge between, constitute a series of views, which render a ride or a walk over this road most delightful and attractive. The City Farm and Almshouse is located on Clark's Point. The fort at the point is the only one in the country without a vane.

CLIFFORD. A post office about three miles north of Acushnet.

FISH ISLAND. The bridge from the city to Fairhaven passes over this island. Several wharves, an extensive coal yard, an oil factory, a marine railway, and a boat manufactory are located there.

FOUR CORNERS. The space formed by the intersection of Water and Union streets. This has been a somewhat noted spot in our local history. Near this was erected the first village house, and it was long regarded as a business centre.

PALMER'S ISLAND, upon which the United States Government has a lighthouse, is at the mouth of the inner harbor. The main channel lies east of it. It affords a good protection from the high southerly winds.

SHAWMUT. This is a small village located four miles N. W. from City Hall. Evergreen Trotting Park is located here. Until the recent establishment of its post office, it was known as Plainville.

POPE'S ISLAND. This island derives its name from a family long known and respected among us. The bridge between the city and Fairhaven passes over it. It lies nearly in the centre of the river.

ROCKDALE is about one mile north of Cannonville, on Rockdale avenue. The only quarry of any size near the city is located here.

WINTERVILLE. The name given to a small collection of houses at the west of Rural Cemetery, on Winterville road. At one time this was quite a flourishing settlement, but is stated to be about one half as large as it was in 1868, owing to lack of road communications. Added to New Bedford from Dartmouth in May 1888.

GRINNELL MILL TENEMENTS. On Acushnet avenue, Bowditch, Logan and Weld street.

HOWLAND MILL VILLAGE. West of the mills, between Bolton road and Dartmouth street. This is a very creditable villiage of mill tenements, conveniently arranged and of neat design.

TURNERVILLE. Vicinity of Shawmut ave and Durfee street. Named for an early settler.

WAMSUTTA MILL VILLAGES (TWO). One on Logan and Front streets, and one between Hazard and Austin streets.

THE BEST PREPARATION FOR HOUSEKEEPING

— Is a —

Wire Gauze Door,

AS USED EXCLUSIVELY ON THE NEW HUB RANGE.

It gives a delicious flavor to the Meat or Turkey
and prevents the shrinkage common to other
ovens.

Roasting meats in a tight oven loses nearly one-
half of the juices, which become dried up, owing
to the excessive evaporation.

When roasted with the Wire Gauze Oven
Door, the juices are saved, and, as the juice is
the vital part of the roast, the amount of nourish-
ing substance saved is really about 50 per cent.

Tough meats are made tender and palatable;
while for baking Bread and Pastry, the Gauze
Door is simply perfection.

The Hub Range with Wire-Gauze Door
is used by the Boston Cooking School for their
demonstration lessons.

Special Circulars, describing the Science and
Practice of Cooking, will be mailed on applica-
tion.
